BFT-suppliers-directory.com

Short description: Concrete components - a current compendium of modern construction with concrete components. Concrete components are aimed primarily at architects, planners and builders, who want to exploit the benefits of prefabricated construction. Impressive images from pre-completed projects of the recent past underpin the technical and design possibilities of this modern mode of construction.

Target groups: Architects · Civil engineers (planning) · Concrete plants

Search? Find!

Let yourself be found by the main market players in the precast concrete industry.

1. Plant equipment

1.1. Machinery and equipment for dosing, mixing, material handling and concrete distribution

- 1.1.1. Concrete dosing and mixing plants
- 1.1.2. Concrete batching plants
- 1.1.3. Concrete distributors
- 1.1.4. Conveyor systems for concrete and bulk material
 - 1.1.4.1. Conveyor belts
 - 1.1.4.2. Bucket conveyors
 - 1.1.4.3. Others
- 1.1.5. Accessories/Others

1.2. Machinery and equipment for the processing of reinforcing steel

- 1.2.1. Straightening, bending and cutting machines
- 1.2.2. Welding machines
- 1.2.3. Accessories/Others

1.3. Machinery and equipment for the manufacture of precast concrete elements

- 1.3.1. Precast concrete production plants
- 1.3.2. Accessories/Others

1.4. Machinery and equipment for the manufacture of pavers, slabs and concrete products

- 1.4.1. Concrete block machines
- 1.4.2. Slab presses
- 1.4.3. Tilt mold machines

1.4. Machinery and equipment for the manufacture of pavers, slabs and concrete products (continuation)

1.4.4. Block processing machines

1.4.5. Surface finishing machines

1.4.5.1. Shot blasting machines

1.4.5.2. Curling machines

1.4.5.3. Grinding machines

1.4.5.4. Coating machines

1.4.5.5. Tumbling machines

1.4.5. Accessories/Others

1.5. Machinery, equipment and accessories for the manufacture of cast stone

1.6. Machinery, equipment and accessories for the manufacture of pipes and manholes

1.6.1. Concrete pipe machines

1.6.2. Machines for the manufacture of manhole rings and accessories

1.6.3. Accessories/Others

1.6.3.1. Sealing for pipes, manholes and culverts

1.6.3.2. Concrete pipe connections and linings

1.6.3.3. Bottom pallets

1.7. Machinery and equipment for the manufacture of autoclaved aerated concrete (AAC) products

1.8. Concrete compaction equipment

1.8.1. Vibrators

1.8.2. Vibration tables

1.9. Machinery and equipment for concrete curing

1.9.1. Concrete curing – Equipment and facilities

1.9.2. Accessories/Others

1.10. Packaging machines and plants

1.10.1. Packaging and strapping machines

1.10.2. Accessories/Others

1.11. Control technology and automation

1.11.1. Control technology/systems

1.11.2. Accessories/Others

1.12. Accessories/Others

2. Molds and formwork

2.1. Molds for concrete blocks and pavers

2.2. Molds for pipes and manholes

2.3. Molds for special elements

2.4. Magnets and magnetic systems

2.5. Formwork

2. Molds and formwork (continuation)

2.6. Textured formliners for concrete

2.7. Accessories/Others

3. Equipment, devices and cranes for handling and transportation at the plant and on the construction site

3.1. Traversers

3.2. Production boards

3.3. Cranes and crane systems

4. Software

4.1. Software

4.2. Accessories/Others

5. Anchoring- and reinforcement technology

5.1. Anchoring systems

5.2. Fastening systems

5.3. Balcony connections

5.4. Reinforcement couplers

5.5. Punching shear reinforcement

5.6. Impact sound insulation

5.7. Reinforcing steel and reinforcing steel mesh

5.8. Spacers

5.9. Others

6. Installation parts

- 6.1. Electrical installations
- 6.2. Light
- 6.3. Heating/Cooling
- 6.4. Ventilation
- 6.5. Casement windows
- 6.6. Others

7. Raw materials

- 7.1. Aggregates
- 7.2. Fibers
- 7.3. Cement
- 7.4. Accessories/Others

8. Construction chemicals

- 8.1. Concrete admixtures
- 8.2. Concrete additives – fillers
- 8.3. Adhesives
- 8.4. Surface protection
- 8.5. Release agents
- 8.6. Retarders and deactivators
- 8.7. Waterproofing systems
- 8.8. Sealing systems

8. Construction chemicals (continuation)

8.9. Pigments

8.9.1. Granules

8.9.2. Slurries

8.9.3. Colorants

8.12. Accessories/Others

9. Machinery and equipment for testing, measuring and control technology

9.1. Concrete testing equipment for use on construction sites

9.2. Test, measurement and control technology

9.3. Testing machines and equipment

9.4. Accessories/Others

Ad Bundle

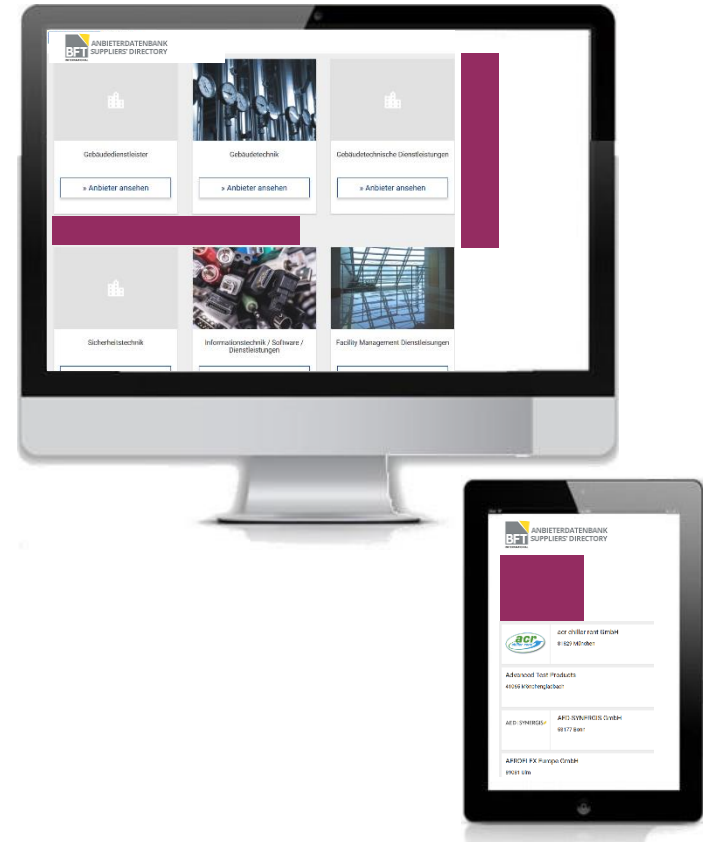

Be flexible and benefit from a high presence on the website using the Ad Bundle.

Provide us with a full-size banner, a skyscraper and a medium Rectangle 3 advertising format which will be displayed in turn according to availability, with any parallel delivery being excluded.

format in pixels (width x height)

Full size banner	468x60
Skyscraper	120x600
Medium Rectangle	300x250

Price per year: €625.00 plus VAT

1 file formats:

JPG, GIF, Flash, HTML Tag, Redirect Tag

Size: max. 100 kB per advertising form

The kB figures given for each advertising medium are maximum sizes and can be understood as the sum total of all the data that Defines the advertising material (including subsequent files to be loaded, sniffer code, images, flash, etc.).

Additional information for Flash advertising media:

- An SWF file including its variables is to be delivered. Within the SWF file, instead of the click-url there is a variable that passes the click-url and the click count of the called HTML code fragment (Sniffer code). All clicks must be realised using this variable.
- In addition to the SWF file we also require an alternative GIF or JPG file as fallback image in the format of the booked advertising format for users who do not have a flash player installed.
- The frame rate should not exceed 24 frames/sec. We recommend 12 frames/sec.

For the detailed technical specifications for all our online advertising media (fullsize banner, superbanner etc.) please refer to our Data sheet at www.bauverlag.de/downloads/datenblatt-online.pdf.

When requested, you shall be sent an evaluation of the ad impressions and ad clicks after the campaign ends.

2 delivery address:

Please send the advertising material for your campaign to order.management@bauverlag.de

3 delivery time:

4 business days before the campaign starts
With these lead times we have enough time together to test the formats and ensure a reliable delivery of the campaign. Delays due to late deliveries will not be made at our expense.
Upon delivery, we also need the required meta information:

- Occupied site
- Customer Name
- Order number
- Click URL
- For photos, the image source
- Contact person for further questions

4 contacts:

For technical questions please contact: Karina Heinze
